Logarithmic function in algebra	2
Expression for euler's number in terms of limit in algebra	2
Range of euler's number in algebra	2
Approximate magnitude of euler's number in algebra	2
Term for logarithmic function of base of euler's number in algebra	2

Logarithmic function in algebra

Inverse of exponential function

Expression for euler's number in terms of limit in algebra

$$e = \lim_{n \rightarrow \infty} \left(1 + \frac{1}{n}\right)^n$$

Range of euler's number in algebra

2 to 3

Approximate magnitude of euler's number in algebra

2.718282

Term for logarithmic function of base of euler's number in algebra

Natural logarithmic function
