
Acidimetry according to old concept

- Determine concentration of acid solution by standard alkali solution

Alkalimetry according to old concept

- Determine concentration of alkali solution by standard acid solution

Sample of analysis in acidimetry in old concept

- Acid solution

Sample of analysis in alkalimetry in old concept

- Alkali solution

Acidimetry according to new concept

- Determine concentration of alkali solution by standard acid solution

Alkalimetry according to new concept

- Determine concentration of acid solution by standard alkali solution

Sample of analysis in acidimetry in new concept

- Alkali solution

Sample of analysis in alkalimetry in new concept

- Acid solution

Standard solution in physical chemistry

- Solution whose concentration is known

Parameters known in standard solution

- Volume of solution
- Amount of solute
